Firearms are stored unloaded and locked using a firearm safe, lock box, trigger lock or cable lock.

Ammunition is safely stored.

Access to stored firearms is restricted from unauthorized persons at all times, no matter where the firearm is located.

All locking devices that use keys are in a place children and other unauthorized users are unaware of.

I have read and understood the laws around my responsibility and liability, as the owner of the gun, should it be used by an unauthorized person such as a child.

I have spoken to family members and trusted users asking them to use these safe storage steps. (Consider keeping this checklist near where you store your guns!)

When my firearm is taken outside of my home (e.g., in a car), it must still be stored safely. Safe storage of firearms is practiced at all times.
