

SAFE GUN STORAGE CHECKLIST

Make sure you can check ALL the boxes!

- Firearms are stored unloaded and locked using a firearm safe, lock box, trigger lock or cable lock.
- Ammunition is safely stored.
- Access to stored firearms is restricted from unauthorized persons at all times, no matter where the firearm is located.
- All locking devices that use keys are in a place children and other unauthorized users are unaware of.
- I have read and understood the laws around my responsibility and liability, as the owner of the gun, should it be used by an unauthorized person such as a child.
- I have spoken to family members and trusted users asking them to use these safe storage steps. (Consider keeping this checklist near where you store your guns!)
- When my firearm is taken outside of my home (e.g., in a car), it must still be stored safely. Safe storage of firearms is practiced at all times.

THE 1-2-3s OF SAFE GUN STORAGE

1

Store unloaded and secured by using a trigger lock, biometric lock, gun case, strong box, gun cabinet or gun safe.

2

Store and lock ammunition safely.

3

Keep others from getting access to stored firearms 24/7. That includes family, friends, children, or other visitors.
